3,000
Nearly 3,000 facilities are using Admin Assist just 8 months after release.

Manage your schedule your way

Admin Assist works how you need it to work. Set it, forget it, and take manual control whenever you need it.

Achieve 3% higher shift-worked rates
On average, using Admin Assist results in a 3% higher shift-worked rate compared to manually created shifts.

Reduce PRN shift cancel rates 25%
Admin Assist PRN shifts have a 25% lower cancel rate than those manually created.

Seamlessly fill cancelled PRN shifts
You can set Admin Assist to fill only PRN shifts cancelled within 72 to 24 hours of the start time.
